

# Jasper Oksanen

## Professional summary

Self-taught in Frontend languages complemented by formal education in Python, C languages and even SQL databases. Developed a strong learning mentality, enabling rapid acquisition of new skills. Created various frontend applications from using python with Django and TypeScript with React Native. Proven ability to adapt and build functional, user-friendly web and mobile applications. Continuously getting in to new projects to fill my portfolio I've self-made with HTML, CSS and JavaScript.
